

## *Our Philosophy ...*

### SMOOTH & GLOWING SKIN IS ALWAYS IN

With a name like Green City Beauty, there's no question we're ingredient-conscious when it comes to our products and practices. But one size doesn't fit all when it comes to skin care. We developed a concept that combines the best of clinical and organic beauty options to meet the dynamic needs of our clients. It's a balance between scientifically proven products and those developed with the simplicity of all that nature has to offer. Our concept is as simple as our approach - deliver quality products and services in a way that's unique to the needs of each client regardless of skin care preference.

# Welcome to Green City ...

Whether you're here for our naturally lush sugaring services or one of our luminous skin care treatments, we create a personalized experience for each client by selecting the right option from our curated menu of services, all of which feature high quality ingredients. With a mission to encourage beautifully balanced, healthy skin from the inside out, you will always leave Green City Beauty feeling confident in your own glowing skin!
